

1 problem with the throttle control mechanisms in the  
2 Bentley, and because of that problem, it was showing  
3 up on the diagnostic codes, and that was a factor as  
4 to the cause of the accident?

5 A. That's what he said.

6 Q. Correct. That was the defense?

7 A. That was the defense.

8 Q. Okay. And so when the trial started and Mr.  
9 Black gave his opening, you then wanted to reach out  
10 to somebody else, you weren't satisfied with what  
11 you already had with this Mr. Turek?

12 A. No. Turek was a mechanic.

13 Q. Okay.

14 A. And he read the error codes without  
15 question. He couldn't explain why we had these  
16 three different ones, because we didn't realize at  
17 that time that every time you powered the car up  
18 turned these error codes on. But he was a mechanic.  
19 He wasn't an expert.

20 What Troy and I, Investigator Snelgrove and  
21 I discussed was I said go back down to Bentley now,  
22 and they were quite concerned with the opening  
23 statement --

24 Q. Who was concerned?

25 A. Bentley. And I said, go back down to

1 Bentley now and see if they will cooperate with us  
2 in imaging the data, whatever data there is.

3 Q. How did you know Bentley was concerned?

4 A. Because they told Troy they were.

5 Q. Okay. They called him and said --

6 A. No, when he got down there, now you got to  
7 check with him, when he got down there, they  
8 expressed concern. And I think they told him at  
9 some point in time that they had had five or six  
10 people that had claimed that, you know, their  
11 Bentleys did that, but they never brought the cars  
12 in or whatever.

13 Q. Okay.

14 A. So no, we just went back to Bentley to see  
15 if they would now help us image the data. The first  
16 time I think they just shut the door on us and they  
17 didn't want to be involved.

18 Q. Okay. So when did you have contact with  
19 Livernois then?

20 A. Well, when Troy was at the Bentley  
21 dealership, someone called him, I don't know if it  
22 was the CEO of Bentley or whoever it was and said we  
23 are going to provide you an expert. And that was  
24 the first that we had heard of Livernois.

25 Q. Okay. And when you say we, you and Miss
